OBJECTIVES

I am currently finishing my master's in Data Science on a fully funded scholarship and seeking opportunities to apply my technical and analytical skills in data-driven decision-making environments. With a background in applied economics and quantitative analysis, I am particularly interested in problems related to prediction, user behavior, and language data. Through academic projects, I have worked with machine learning and natural language processing methods and am motivated to help organizations make better use of unstructured data for analysis and insight generation.

EDUCATION

Barcelona School of Economics

Master of Science in Data Science for Decision Making

Relevant courses: Deep Learning, Causal Inference and Machine Learning, Econometrics, Text Mining and Natural Language Processing

Degree awarded by Universitat Pompeu Fabra and Universitat Autònoma de Barcelona

Barcelona, Spain

09/2025– 07/2026

University of Pristina "Hasan Prishtina"

Bachelor of Science in Applied Economics and Management

Thesis on Employment Determinants in the Western Balkans

Erasmus+ Exchange Semester, Université Côte d'Azur

Pristina, Kosovo

09/2022– 07/2025

Nice, France

01/2024-06/2024

PROFESSIONAL EXPERIENCE

Ministry of Industry, Entrepreneurship and Trade of Kosovo

Intern at the Entrepreneurship Department

Pristina, Kosovo

05/2025–07/2025

- Assisted in reviewing policy and project documentation related to entrepreneurship and SME development.
- Supported the preparation of workshop materials, presentations, and internal reports.
- Participated in discussions with professional schools on entrepreneurship and labor market readiness initiatives.

DT Global/USAID Investment Promotion and Access to Finance Activity

Grants Intern

Pristina, Kosovo

10/2024 – 02/2025

- Assisted in grant monitoring and reporting by organizing financial and operational records.
- Conducted market research and due diligence analysis for proposed grant applicants.
- Monitored grantee deliverables, budgets, and prepared grant documentation.
- Improved grant oversight by streamlining data collection and identifying cost irregularities.

LANGUAGES & TECHNICAL SKILLS

Data Science / ML: Python (pandas, scikit-learn, numpy, PyTorch), R (dplyr, ggplot2), STATA, GitHub

Language skills: Albanian (Native) and English (Fluent, C1)

ADDITIONAL INFORMATION

- Young Cell Scheme Scholar (2025/2026)
- Mentee, UN Women Kosovo Leadership Mentorship Program (2025)
- Project Member, "Words Matter: Promoting Gender-Inclusive Language in Higher Education" (WUS Austria / SHER Program) (2025/2026)
- Elite Scholar & University of Pristina Faculty of Economics Scholar (2022/2023 and 2023/2024)
