OBJECTIVES

I am currently applying my technical and analytical skills in a data-driven decision-making environment, after recently finishing a master's in Data Science on a fully funded scholarship. With a background in applied economics, I am particularly interested in problems related to prediction, user behavior, and language data. I have worked with machine learning and deep learning and am motivated to help organizations make better use of unstructured data for analysis and insight generation.

EDUCATION

Barcelona School of Economics

Master of Science in Data Science for Decision Making

Relevant courses: Deep Learning, Computational Machine Learning, Deep Learning for Image Processing, Econometrics and Causal Inference, Text Mining and Advanced Natural Language Processing, Geospatial Data Science, Forecasting with Text as Data
Thesis on Early Score Prediction in VR Cognitive Training Using Transformers and Transfer Learning, in collaboration with Virtuleap

Degree awarded by Universitat Pompeu Fabra and Universitat Autònoma de Barcelona

Barcelona, Spain

09/2025– 07/2026

University of Pristina "Hasan Prishtina"

Bachelor of Science in Applied Economics and Management

Thesis on Employment Determinants in the Western Balkans

Erasmus+ Exchange Semester, Université Côte d'Azur

Pristina, Kosovo

09/2022 – 07/2025

Nice, France

01/2024 – 06/2024

PROFESSIONAL EXPERIENCE

Agency of Information Society (AIS)

Ministry of Digitalization and Public Administration of Kosovo

Senior Officer

Pristina, Kosovo

09/2026 – Ongoing

Contributing to the development of Kosovo's government Data Hub, working on data integration, metadata, and data management while applying data science principles to enable analytics, forecasting, machine learning, and AI applications.

Sustainable Higher Education and Research - SHER Contract

Research Project Member

Pristina, Kosovo

10/2025 – 05/2026

- Conducted quantitative and qualitative research as part of "Words Matter", an independent research project funded by SHER.
- Explored gender-inclusive language at the University of Prishtina, analyzing survey data alongside interviews and focus groups to understand its impact on students' academic experience.

Ministry of Industry, Entrepreneurship and Trade of Kosovo

Intern at the Entrepreneurship Department

Pristina, Kosovo

05/2025 – 07/2025

- Reviewed and analyzed policy and project documentation related to entrepreneurship and SME development.
- Participated in discussions with professional schools to identify opportunities for research on entrepreneurship and labor market readiness.

DT Global/USAID Investment Promotion and Access to Finance Activity

Grants Intern

Pristina, Kosovo

10/2024 – 02/2025

- Managed grant records, monitoring, and data collection through the organization's database.
- Conducted market research and due diligence while monitoring grantee deliverables, budgets, and identifying cost irregularities.

LANGUAGES & TECHNICAL SKILLS

Data Science / ML: Python (pandas, scikit-learn, numpy, PyTorch), R (dplyr, ggplot2), SQL, AWS, STATA, GitHub

Language skills: Albanian (Native) and English (Fluent, C1)

ADDITIONAL INFORMATION

- Young Cell Scheme Scholar (2025/2026)
- Mentee, UN Women Kosovo Leadership Mentorship Program (2025)
